Career Objective

I would like to work in Company which provides an environment where I can utilize my full potential and also get a chance to contribute positively towards meeting company's objectives.

Work Experience

Recent Bachelor of Computer Applications graduate with a strong foundation in computer applications, programming, and web development. My academic journey provided me with comprehensive knowledge of various programming languages, database management, and software development methodologies.

Academic Project

1. Sahjanand Stone Industry (PHP):

- Developed a dynamic website for Sahjanand Stone Industry using **PHP** and **MySQL** database, demonstrating expertise in web development and database management.
- **Implemented Features:** User registration and login functionality, Product showcase with filtering and sorting, Order management, Contact form with email integration, etc.
- **Technology Stack:** PHP, HTML/CSS, JavaScript and MySQL database.

2. Sahjanand Stone Industry (ASP.Net):

- Designed and developed a dynamic website with **ASP.Net** as the front-end and **SQL Server** as the back-end database.
- **Implemented Features:** User registration and login functionality, Product showcase with filtering and sorting, Order management, Contact form with email integration, etc.
- **Technology Stack:** ASP.Net, HTML/CSS, JavaScript and SQL Server Database.
